

If your child is interested in trains, come join us for a fun and enriching 5-day summer camp at the Southeastern Railway Museum. The theme for 2017 is "I've Been Working on the Railroad."

During this year's camp, young railroaders will learn about daily life on a train and reenact different jobs on the railroad. These will include Engineer, Brakeman, Conductor, Track Crew, Porter, Waiter and Cook. They will practice the different skills needed for each job while "working" on actual, historic railcars. Your child will also get the opportunity to take a train ride on our operating train here at the museum.

Our camp is for ages 4 to 12. Campers will split into three different age groups during the program. Children must be 4 years old at the start of the camp and no older than 12 by the end of the camp. On the last day of camp, we invite parents to join us for graduation, reenactments, and a train ride for everyone.
